About this Training

This intensive 3-day course provides participants with a practical understanding of the PRINCE2® 7 project management methodology. You will learn how to initiate, manage and deliver projects using a structured, scalable approach that adapts to projects of any size or industry. The course covers the latest updates introduced in PRINCE2 7, including sustainability, digital transformation, data management and people management, while fully preparing you for the official PRINCE2® 7 Foundation certification exam.

Learning Objectives

By the end of this training, you will be able to:

- Understand the purpose, benefits and key concepts of the PRINCE2® 7 methodology.
- Explain the seven PRINCE2 principles and how they ensure successful project management.
- Describe the seven PRINCE2 practices, including Business Case, Risk, Quality, Plans and Change.
- Understand the PRINCE2 processes from project initiation through project closure.
- Recognize the roles and responsibilities within a PRINCE2 project organization.
- Tailor PRINCE2 to suit different project sizes, industries and organizational environments.
- Prepare confidently for the official PRINCE2® 7 Foundation certification exam.

Program

Day 1	Introduction to PRINCE2® 7, project management fundamentals, key concepts, project context, the seven principles, people management and organizational roles & responsibilities.
Day 2	The seven PRINCE2 practices: Business Case, Organization, Plans, Quality, Risk, Issues and Change, and Progress. Practical application and project governance.
Day 3	The seven PRINCE2 processes, tailoring PRINCE2 to different project environments, sustainability and digital considerations in PRINCE2 7, exam review, mock exam and certification preparation.

Prerequisites

There are no prerequisites or technical background required to attend this course.
