About this Training

This intensive 3-day course provides participants with a practical understanding of PRINCE2 Agile® Foundation V2, combining the proven governance of PRINCE2® with Agile concepts, frameworks and techniques. You will learn how to successfully manage projects in fast-changing environments while maintaining effective control, governance and business alignment. The course covers Agile ways of working, tailoring PRINCE2 to Agile projects, and prepares you thoroughly for the official PRINCE2 Agile® Foundation V2 certification exam.

Learning Objectives

By the end of this training, you will be able to:

- Understand the purpose, benefits and key concepts of PRINCE2 Agile®.
- Explain how Agile delivery complements the PRINCE2 project management methodology.
- Apply PRINCE2 principles, practices and processes within Agile project environments.
- Understand common Agile approaches including Scrum, Kanban and Lean concepts.
- Tailor PRINCE2 to support iterative and incremental delivery while maintaining effective governance.
- Recognize Agile roles, behaviours and techniques that contribute to successful project delivery.
- Prepare confidently for the official PRINCE2 Agile® Foundation V2 certification exam.

Program

Day 1	Introduction to PRINCE2 Agile®, Agile fundamentals, Agile mindset and behaviours, PRINCE2 overview, Agile frameworks including Scrum, Kanban and Lean, and the PRINCE2 Agile principles.
Day 2	Tailoring the PRINCE2 practices for Agile environments, business justification, planning, risk, quality, change, progress management, and Agile delivery techniques.
Day 3	Tailoring the PRINCE2 processes for Agile projects, governance in Agile environments, focus areas such as communication, rich information, frequent releases and collaboration, followed by exam review, mock exam and certification preparation.

Prerequisites

There are no prerequisites for attending this course. It is suitable for project managers, Agile practitioners, project team members, business analysts, product owners and professionals looking to combine structured project governance with Agile ways of working.
